

PEMSERTER® MICRO-MATE® HAND TOOL

- Equipped with punches and dies to punch fastener mounting holes in metal sheets.
- Changes to a flat punch and recessed anvil to easily install metric or unified self-clinching nuts.
- Ideal for prototype shops or short production runs.
- One-year parts warranty.

The PEMSERTER® MICRO-MATE® hand tool is a versatile hand tool weighing only 1.25 kg / 2.75 lbs. that can develop a squeezing force of 1,134 kg / 2,500 lbs.

Kit contains one hand tool, one flat punch, seven punches and dies, one punch adapter bushing, one edge-depth guide, five fastener anvils and a storage case. The metric kit installs nut sizes M2 to M5 and the unified kit installs nut sizes #2-56 to #10-32.

SPECIFICATIONS
